School Leaders and Teachers are pillars of our communities, not just leading schools, but community leaders in their own right. Dignitas is working to equip, empower and support School Leaders and Teachers as new Community Champions for this current global crisis.

Dignitas is renowned for its innovative model of training and coaching that equips educators and schools in marginalized communities to transform student opportunities, and ensure every child can thrive and succeed. During COVID19 school closures, Dignitas has pivoted to design digital training and coaching tools designed for low-tech environments.

"I am grateful to Dignitas because my students will gain a lot. We will continue to support our students...things are difficult for people & so education has been affected very much. I am privileged to be part of Leaders of Learning program."
Teacher Margaret, Dandora

"I am so glad that my team and I will get an opportunity to reach some of the learners through Leaders of Learning Program. I am looking forward to utilizing this opportunity with the gadgets and learning materials Dignitas has provided to us."
Teacher Florence, Kawangware

"I want to do my best to support learners who look up to me for guidance. Dignitas is empowering us with skills & resources, we in turn continue to empower learners during this difficult period. I’m happy that I have an opportunity to do something."
Teacher Lilian, Kawangware

"As a teacher, I am happy to be part of innovation in action. We need to keep learning & keep our students busy because we cannot continue having them sit idle at home. They should not forget books because of the pandemic and not being in school. I am thankful to Dignitas for this idea of engaging both parents & students. Parents are an important part of children’s learning & well-being so this program is perfect. I am happy I will also gain some knowledge through the support offered by our caring coaches."
Teacher Grace, Dandora

May 2020: Dignitas is supporting:
- 300 School Leaders and Teachers
- 30 Trainer of Trainers
- 5,920 Households

Preliminary Results: Participants report 42% knowledge gain

Expected Outcomes:
1. Children have access to quality care that ensures child safety and well-being
2. Children stay engaged in learning whilst at home
3. Parents are empowered and equipped to support learning at home
4. Community Champions are equipped to support households and ensure the well-being and safety of children

Let’s keep all children safe and learning!
